"Love All Around The World"

Visit "[Love All Around The World](#)" on MotoLyrics.com

No one could believe it
God upon a cross
Dying in the place of every man
Talk about commitment
As it ought to be
Jesus took the whole world by the hand
From this single act of compassion
Love is reaching out everywhere

Chorus:

Love all around the world
Love for every boy and girl
Love came down for you and me
Love created our history
Love all around the world
Love from his holy word
Love is all that we believe
Love is everything we should be
Love all around the world

Love is a decision
You and I must make
In how we live our everyday lives
All our good intentions
Will be realities
As we follow in the steps of Christ
We can change the end of the story
We can change a life with his love

Chorus

Where hearts are open
Spread his hope and his grace
We need to show God's mercy all over the place

We can change the end of the story
We can change a life with his love

Chorus
