Pull the shades down on the sun
Don't want to see the morning
Break to another day
I don't have the strength to face

Close the door and keep it shut
Lord this ache is just too much
For me to take
How do I bring to pray
My way back to
Some kind of piece of mind
But then I hear love whispering through
The darkest of times

Chorus:

You'll get through this
You'll break new ground
When you're lost within your weakness
Hope is waiting to be found
You'll get through this
No matter what it takes
I believe in you for Heaven's sake
You'll get through this

When doubt starts tearing
At the faith deep in you
Don't be afraid
Just remember what I said
Nothing formed against you will succeed
As long as your heart's turned towards me

Chorus

Nothing formed against you will succeed
As long as your heart's turned towards me

Chorus
