(Na na na na na ...)

Somewhere in the distance
The radios beckoning me on i feel
Im right back here with you again
I wonder if your listening
Does it make you think baout the time
We ran out laughing in the summer rain..o baby

Im caught up in the mon. blues
I can barely take my mind off of you
Its just a silly song about love..
And here comes the chorus

[chorus]

Every summer has a song
That reminds me of the good times that passed
If only they could last forever
And when they play it on the radio it takes me back to
the last time we were
Daning somewhere
The DJ playing it all night long
Every summer has a song

(Na na na na ..)

So we're by the ocean
When i held you in my arms you
Swore you never knew a love like this before
Watching the horizon
We wondered if the sun could ever shine
Forever, smiling on us evermore oh baby..

And then the band beat all night long
And we laughed until the break of dawn

Sining silly songs about love
And here comes the chorus

[chorus]

Every summer has a song
That reminds me of the good times that passed

If only they could last forever
And when they play it on the radio it takes me back to
the last time we were
Daning somewhere
The DJ playing it all night long
Every summer has a song

Theres a picture of the past
A memory of you
To make the moment last

(Na na na na...)

[chorus]

Every summer has a song
That reminds me of the good times that passed
If only they could last forever
And when they play it on the radio it takes me back to
the last time we were
Daning somewhere
Every summer has a song
That reminds me of the good times that passed
If only they could last forever
And when they play it on the radio it takes me back to
the last time we were
Daning somewhere
The DJ playing it all night long
Every summer has a song

Every summer has a song...
