Making trips to nowhere that's what my life's like
when you're not here

You know i hate this cliché but i love you
if you'd come back you'd make my year

If you'd come back i'd be feeling so much better
here iam shedding teardrops on this letter
all i need is you to stay with me
wont you stay with me no no no no

****Chorus****

Since loving you sets me free
I need you to believe in me no no no no
Since loving you sets me free i need you to believe in
me,
I'm alright now.

In this hazy world it's not to hard who you are
well baby you're just you and maybe
im just me

****Chorus****

Since loving you sets me free
I need you to believe in me no no no no
Since loving you sets me free i need you to believe in
me,
I'm alright now.

Seems everytime i think i'm at the end
and i think i'm at the end
you take me back to the start

Oh the noghts, they hurt but you just look at me
and say it's all in a day's work.
