Here comes the new sensation
All along the shores we sing it
New waves came crashing in
And washed the rest away

Thank God, they've come to save us
We're not the ones you should trust
Slit all their throats while they're asleep
So when they wake they can not speak

Your secrets are safe with no one
We're desperate for some dignity
We never mean the things we say
This art is all just fun and games

And to my closest enemies
Who keep me in good company
I never got the chance to say
Thank you for all your loyalty

The waves are crashing all around
The lies to your conscience they are bound
And like dead weight will make you drown
Nothing can save us from that now

Your secrets are safe with no one
We're desperate for some dignity
We never mean the things we say
This art is all just fun and games

Until someone gets hurt
Until someone gets hurt
Until someone gets hurt
Until someone gets hurt
Until someone gets hurt
Until someone gets hurt

Your secrets are safe with no one
We're desperate for some dignity
We never mean the things we say
This art is all just fun and games, yeah

Your secrets are safe with no one
We're desperate for some dignity
We never mean the things we say
This art is all just fun and games

Until someone gets hurt
Until someone gets hurt
