Oh, sad eyed woman
You boogie 'til the dawn
Long a-bout the break of day
Your man has up and gone

You got 13 lovely children
But no proud father knocking at your door
But every hungry woman
Has been in your place before

Oh, the doctor came calling
He found you'd fallen
Oh, you backed him in the corner
Doing what you wanna

You got 14 lovely children
But no proud father knocking at your door
But every hungry woman
Has been in your place before

You got 15 lovely children
No proud father knocking at your door
But every hungry woman
Has been in your place before, yeah

Oh the doctor came calling
Found you'd fall-en
Aww, you backed him in the corner
Once again you doing what you wanna

You got 15 lovely children
But no proud father knocking at your door
But every hungry woman
Has been in your place before

Sad woman, ohh
