You said before we meet
That your life was awful tame
Well I took you to a nightclub
And the whole band knew your name

Well well baby baby
I tell ya I've got news for you
Aw some how your story just don't ring true
I wanna tell you I got news for you

Well you phoned that you'd be late
Cause you took the wrong express
And then you walked in smiling
With your lipstick all, oh a mess

Well well baby, let me tell you little mama
I've got news for you
Aw your story just don't ring true
Yeah I've got news for you

Aw you wore a diamond watch
Claimed it was from Uncle Joe
Well I looked at the inscription
It said love, love from Daddy-o

Well well baby baby
I wanna say I got news for you
Well if you think that jive will do
I wanna say I've got news for you
Well some how your story don't ring true
Well I've got news for you
