"Love The Poison"

Visit "[Love The Poison](#)" on MotoLyrics.com

Sweet temptation it pulled me in
I had my habit with a taste for sin
As you made it easy the first one's free
But the more I get now the more I need

But I love the poison
I love the poison
But it's killing me

I thought I was strong a man in control
I can't do without it now not to save my soul
Life is fruitfull day by day
Feeling my good life awww slip away

Cause I love the poison
I love the poison
But it's killing me

It's gonna be there

I've tried and tried to pull myself away
But I keep coming back now for one more taste
Cause I love the poison
Yes I love the poison
I love the poison
It's killing me

While I love the poison
I love the poison
I love the poison
It's killing me
It's killing me, yeah
I love the poison
