"Neighbor Neighbor"

Visit "[Neighbor Neighbor](#)" on MotoLyrics.com

Neighbor neighbor don't you worry what goes on in my house

Your always looking for something to gossip about

Going all around from door to door

Running your mouth about things you don't know

Neighbor neighbor don't you worry what goes on in my home

Neighbor neighbor don't you worry how I treat my wife

Your telling everybody we fuss and fight every night

Well bad news travels I travel too

Something real bads gonna happen to you

Neighbor neighbor don't you worry what goes on in my home

Neighbor neighbor don't you worry who knocks on my front door

Your walking, talking, pacing all over the floor

Your sneaking, peaking, around the home

Keeping your big ears glued to my wall

Neighbor neighbor don't you worry what goes on in my home

Tend to your business leave mine alone

Yeah neighbor neighbor take care of your own

Tend to your business leave mine alone

Ya neighbor, neighbor
