Since you been gone I got no one  
Since you been gone my nights are too long  
Well I can run and hide but ain't no use  
Later tonight I gotta rendezvous with the blues

Day after day this old rain keeps falling  
Night after night I try and forget you  
You loved me like nobody else can do  
All I got here is this rendezvous with the blues

Time goes by so slowly the clock says 10 past 2  
But I can't sleep cause I gotta keep my  
Rendezvous with the blues

Well the telephone keeps on ringing  
Why can't that be you  
I pick it up too late now I gotta to make my  
Rendezvous with the blues

Since you been gone I still got no one  
Since you been gone my nights are too long  
Well I can run and hide but ain't no use  
Cause I got to go and keep my  
Rendezvous with the blues

Well you loved me like nobody else can do  
But all I've got is this rendezvous with the blues

Talking bout a rendezvous with the blues  
Talking bout a rendezvous oh oh with the blues  
Talking bout  
Talking bout a rendezvous
