What would I give, for just a few moments
What would I give oh, just to have you near
Tell me you will try, to slip away somehow
Oh I need you darling, I need you right now
So slip away, slip away, slip away, yeah yeah yeah
I need you so

Now I know it's wrong
The things I ask you to do
But please believe me darling
I don't mean to hurt you
But could you just try to slip away
Without him knowing your gone
Then we could meet somewhere
Somewhere all alone
Darling slip away, slip away, slip away, yeah yeah yeah
I need you so

Love oh love, how sweet it is
The way you make me feel sometimes darling
How sweet it is

Just slip away, slip away, slip away, yeah yeah yeah

Oh love, how sweet it is
The way you make me feel sometimes darling
How sweet it is, oh
Oh slip away baby
Tip-toe out the back door
Well I have known you darling
Oh I need ya
Just slip away
