"Night Games"

Visit "[Night Games](#)" on MotoLyrics.com

It's five o'clock, thank God it's Friday
Anticipation's drivin' me wild
One more hour is one more eternity
I can't wait just to see your smile

We can dance out on the high wire
Up so high, you can't look down
Close your eyes, dive in the deep end
We'll go the distance, baby, one more time

Let's play night games
Let's do some night time things

Bright lights, shine in the starlight
We're drawn like a moth to a flame
Fly, straight in the candle
Oh, baby, here we go again

Let's play night games
Let's do, let's do some night time, night time things

It's five o'clock, thank God it's Friday
Anticipation's drivin' me wild
One more hour is one more eternity
I can't wait just to see your smile

Let's play some night games
Let's do, let's do some night time things, yeah
Let's play some night games, oh
Let's do some more of those night time things

Let's play some night games
Let's do, baby, let's do some night time things, yeah
Let's play some night games
Let's do, let's do some night time, some more night
time things
