"It Will Be Forgiven"

A cold wind blows over the shore
And the endless night seems darker than before
The land lay silent and forlorn
Can you feel the calm before the storm?

How long have you been here before?
And the emptiness moves in you more and more
And your heart became lonesome and forlorn
Can you feel the calm before the storm?

We can see beyond the horizon
We can see beyond the sea
I can feel the deck arising
I can feel you next to me

We are barely surviving
But we are still here
Whatever we'll do
It will be forgiven

Here comes the storm again
My life is like a hurricane
I can't stand the thunder and the rain
Here comes the storm again

We can see beyond the horizon
We can see beyond the sea
I can feel the deck arising
I can feel you next to me

We are barely surviving
But we are still here
Whatever we'll do, it will be forgiven
What we'll do, it will be forgiven

It seems to come from everywhere
Though somehow we will be there
Oh we fight on our way
Whatever we'll do
I'll see you in heaven

We can see beyond the horizon
We can see beyond the sea
I can feel the deck arising
I can feel you next to me

We are barely surviving
But we are still here
Whatever we'll do, It will be forgiven
What we'll do, it will be forgiven

(Alleluia...)
