Prophets full of grace
Come down and help us out
We've got wise men
Reeling in our right to remain quiet
They've got choirs of angels
Singing on high so they can maintain the law

Come on crazy, come on crazy love
They say that you come in disguise from above but
I feel you coming in close
If you think I'm crazy them come on

Sunset Boulevard gone down
You know I like that sound
We get caught up and merrily go 'round
Lost in what we've found
We're a proud American compound
And we will destroy it all

Come on crazy, come on crazy love
They say that you come in disguise from above but
I feel you coming in close
If you think I'm crazy them come on (2x)
