"Upside Down"

Visit "[Upside Down](#)" on MotoLyrics.com

Show me another revolution
I know there must be a better resolution
And all the children at war with good intentions
For all the reasons inside that no one mentions

Go on, go on
Let the radio lie
Go on, go on

Together this world is hung overs winging upside down
And it seems to be hanging over me right now
This world is hung over swinging upside down
I think I've had enough by now
I think I've had enough by now

Let's take another peice of heaven
Along with the all the king's soldiers in the kingdom
And send them raging far off in to the distance
And oh, we will hope for a future of existence

Go on, go on
Let the radio lie
Go on, go on

Together this world is hung over
Swinging upside down (world is hung over swinging
upside down)
And it seems to be hanging over me right now
This world is hung over swinging upside down
I think I've had enough by now
I think I've had enough by now

I think I've had enough by now (3x)
