Pilgrim across the water  
We are the same brother  
Hitchhiking back to Zion  
Holding our tears as we flip the album  
What if this leads to ruin?  
You got a soul, use it  
All this despair forgiven  
Rolling away on the Wheel of Sevens  
Sings like the Queen of Sheba  
Voice through a Blonde Speaker  
One dropping bubble and Leslie  
Calling me home like Haile Selassie

Pilgrim beside the fire  
It's been a long winter  
We got a lot in common  
Cover our heads as they split the atom  
All of our days are numbered  
I'll take in some comfort in knowing the wave has  
crested  
Knowing I don't have to be an exception  
Children they fill the bleachers  
One is the next Caesar  
Keep all their minds collected  
Until he comes  
Until he comes

How do you make a day in plain sight?  
Too good to be true

I seen, I seen, I seen stranger things man

I seen, I seen that tree of smoke

Yeah

I seen, I seen, I seen, I seen stranger things happen

Happen before

Pilgrim up on the mountain  
Barefoot and still climbin?

Filling the book of hours  
Day after day in the filth and squalor  
We are the chosen people  
Safe from the next evil  
One love!  
Magnetic memory  
Reel after reel  
Spinning infinitely

I had the wildest dream last night  
I was swimming with you in that cenote the Heavens  
made with black fire  
Just woke up too soon

I seen, I seen, I seen stranger things man  
I seen, I seen those daytime ghosts

Yeah

I seen, I seen, I seen  
I seen stranger things happen  
Happen before

I seen, I seen, I seen the strangest things man  
I seen, I seen that tree of smoke

Yeah

I seen, I seen, I seen stranger things happen  
Happen before
