Well is it true what I heard about the son of god  
Did he come to save did he come at all  
And if I dried his feet with my dirty hair  
Would he make me clean again

They say the don't know when but a days gonna come  
When there won't be a moon and there won't be a  
sun  
It will just go black it will just go back  
To the way it was before

I knew a lovely girl with such pretty pride  
And every man wanted her yeah and so did I  
Yeah and so did I but she up and died  
In a fit of vanity

Now men with purple hearts carry silver guns  
And they will kill a man for what his fathers done  
But what my father did you know it don't mean shit  
I'm not him

And you think I need some discipline well I've had my  
share  
No I've been sent to my room I've been sat in a chair  
And I held my tongue I didn't plug my ears  
No I got a good talkin' to

Now I don't know why but I still try to smile  
When they talk at me like I'm just a child  
Well I'm not a child  
No I am much younger than that

But now I've read some books and I've grown quite  
brave  
If I could just speak up I think I would say  
That there is no truth there is only you  
And what you make the truth

So I'll just sing my songs and I'll pass ahead  
And then I'll leave your town and I'll never look back  
No I don't look back because the road is clear  
And laid out ahead of me

Now Iâ€™ll get home Iâ€™ll meet my friends at a favorite  
bar  
Weâ€™ll get some lighter heads for our heavy hearts  
And weâ€™ll share a drink yeah weâ€™ll share out fears  
And theyâ€™ll know how I love them â€“ Iâ€™m nothing  
without their love

Now I donâ€™t know when but a days gonna come  
When there wonâ€™t be a moon and there wonâ€™t be a  
sun  
It will all go black it will all go back to the way  
Itâ€™s supposed to be

Well is it true what they say about the son of god  
Did he die for us did he die at all  
And if I sold my soul for a bag of gold to you  
Which one of us would be the foolish one â€“ which one  
of us would be the fool

Could you please start explaining you know I need  
some understanding  
Could you go and start explaining you know I wanna  
understand
