I'd give anything to be with you  
If only you would too  
I spend my nights dreaming of you  
Hoping one day they'd come true

I wish upon that shouting star  
That seems to be just to far  
You are my shining star  
But you seem just so so far

You want a hero, or a superman  
Someone with a california tan  
If only, if only I could be that man  
Your one and only superman

I'd pick you up when your down  
I'd fly you all around  
Even when the waves crash down  
I'd find u when you can't be found

(Course Starts)

But I'm no superman  
I'm just a man  
Without the super baby  
But maybe just maybe

I'll be your one and only superman  
The one with a california tan  
I can, I can be that man  
Your one and only superman

(Course Ends)

I would be your superman and save your day  
Any week or month, March, April, and May  
I would be there with no doubt, no pay  
Any where, any time of the day
