I won't put you in your place.
I won't throw it back in your face when you get yours.
And I won't kick you when you're down now.
I'll pull you back on your feet,
When you get yours. (When you get yours.)
You get yours.
I know where you're coming from.
I know it's going to get the best of you.
Go home the short way.
The violent bear it away.
I know dirty water, (I know dirty water.)
Ways to get around this. (Ways to get around.)
And you'll get yours. (Get yours.)
I won't kick you when you're down now.
I won't take out the piss,
When you get yours.
I know where it's coming from.
I know it's going to,
Get the best of you.
So take the short way home.
You'll want to be there when it all,
All comes on back to you.

I know where it's coming from.
I know it's going to,
Get the best of you.
Take the short way home.
You'll want to be there when it all,
All comes on back to you. (Comes on back to you.)

Go home the short way.
The violent bear it away.
Violent bear it away.
