Somehow I knew you just slipped off the ring
When you walked up and pulled up a chair next to me
You told me your name with your hand on my knee
Boy what are you doing

I've know some pretty wild men in my life
Take it from me honey you aint' that type
I'm doin' my best to do what is right
But I'm only human

Every minute your hangin' around
The lonely in me keeps on warin' me down
If you only knew what I'm thinkin' right now
Boy your makin' me crazy
I'm callin you baby
What are you doin
I'm only human

Boy you makin' me crazy
I'm callin you baby
What are you doin'
I'm only human

So reach in them jeans boy and put on that ring
The one that you think you've been hiding from me
If you don't mind would you hurry and please
I'm only human
Boy I'm only human
