(verse 1)

I see the face your making
I hear the words you say
You've got to have it your way
Hey hey
So one by one you favor
You put them on display
Your trophies left to decay
Hey, hey, hey, hey

(verse 2)

So where's the love your preaching
So where'es the charity
It's all a mystery to me
It's time to love your neighbor
And love your enemy
Lay down your life for the sheep

(chorus)

I pray you'll find
Some peace of mind
Look in the mirror
Reflections never lie
