On and on, you always knew just what to say
You tried to take me; I tried to look the other way

But your words kept changing
Till your lies became your truth
In the meantime, we go on and on and on and on and
on.

I see your words have found you -- can you feel it, can
you feel it there?
See your Kingdom fall around you -- I can feel it, can
you feel it?

Now you're gone -- but your fingerprint remains
I forgive you, but I can't forget your face

Now your name keeps changing
but the motive's still the same
In the mean time we go on and on and on.

I see your words have found you -- can you feel it, can
you feel it there?

See your Kingdom fall around you -- I can feel it, can
you feel it?
I see your words have found you -- can you feel it, can
you feel it there?
See your Kingdom fall around you -- I can feel it, can
you feel it?

I tried to forgive you
Tried to forgive you
I want to forgive I tried
I tried to forgive you
I have to forgive you

But it goes on
