(verse 1)

You're feelin alone  
You're out on your own  
Everythings red  
the pain in your head  
about to explode  
You want to survive  
But its all in your mind  
You feel there's no hope  
that your life's a joke  
and your out of time

(verse2)

This feeling in inside  
Took you for a ride  
You thought all was lost  
and so at all cost  
went totally wild  
So now you must pay  
For mistakes that you made  
Unless you repent  
the time that you spent  
will all be in vain

(chorus)

See me hear me  
Life ain't what it appears to be  
There are two paths you can take

Your destiny is what you make

(bridge rap)

I look around but the only sound is the scream I see  
when you look at me.  
You seem so sweet but underneath, your pleasure lies  
in my defeat.  
You want to go so far be a super star,  
see your name in lights and a chauffered car,  
but the real desire is not the finer, you need a love that  
won't deny you!!

(alt chorus)

see me and hear me the power comes through me  
to reach your desire and kindle the fire

(tag)  
open your eyes and see  
can't you hear me?  
open your eyes and see  
can't you hear me?  
open your eyes and see  
can't you hear me?  
open your eyes and see!
