Fallen down
Barely breathing
I've lost the way to make it through the night
From far away
I hear you calling
And you're telling me that everything's alright

I guess I've been wondrin' where your are
I'm lost without a candle in the dark

I'll always long for you
You're the one who saved me
I know when we're together, there's nothing I can't do
I know it's always true
Nothing's going to break me
We're holding on forever, to a love we always knew
I'm nothing without you

All along
You stand beside me
You are always there to catch me if I fall
Every day
You still guide me
And you show me love I never knew before

You're the one who took away my pain
You're the reason life begins again

I'll always long for you
You're the one who saved me
I know when we're together, there's nothing I can't do
I know it's always true
Nothing's going to break me
We're holding on forever, to a love we always knew

And I don't want you thinking
That I'll ever be leaving
When you find that your world is crashing down
I promise You'll feel it
If you try and believe it
I'll be the one that's around

I'll always long for you
You're the one who saved me
I know when we're together, there's nothing I can't do
I know it's always true
Nothing's going to break me
We're holding on forever, to a love we always knew
I'm nothing without you
