Sometimes we fight 'bout who's wrong and right
And stay up all night
And sometimes we drink and say hurtful things
That we don't mean
Yeah, we're both screamin' but nobody's listenin'
Let's take this madness out of the kitchen

Chorus:

Come to bed
Let's just lay down
There's just one way we're gonna work this out
Forget what I did
Forget wht you said
Oh darlin', come to bed

Well, I love you, you know I do
And you love me, too
So let's just stop, remember what we've got
Before it all gets lost
Just take my hand, it's been way too long
Turn out the lights and turn each other on

Chorus:

Come to bed
Let's just lay down
There's just one way we're gonna work this out
Forget what I did
Forget wht you said
Oh darlin', come to bed

Let's put aside our prideful feelin's for tonight
In the morning we'll see things in a different light

Chorus:

Come to bed
Let's just lay down
There's just one way we're gonna work this out
Forget what I did
Forget wht you said
Oh darlin', come to bed
