Sleep
In the shadows
Breathe
In the air
Without dreaming
Without a care, oh
Look
In the mirror
Cry
No control
I've got a fever
I've got my whole, oh

I tried to believe it
Tried to receive it
With eyes of power
Will you deceive me, oh

Crawl
Up to the clouds
Claw
Your way out
I want to be there
I want to move on, oh

I ran like a coward
Far from this place
Show me desire
Show me disgrace
Believe me (x3)
