People come around
People let you down
Anywhere you go, anyone you see,
Its real
Its up to you to make it happen
Its up to you to make it real

(Chorus)and you know, how it feels,
To be some, to need some,
And you know, how it feels,
To be some, to need some,

Tell me what you know,
Tell me how you feel,
It doesnt't matter when your down,
When you look at me with your eyes,
That smile on your face it seems happy,
Are u happy?

(Repeat Chorus)
