How many times can I say I'm sorry?
I don't mean to bring you down
How many times can I say the wrong things?
I'll just slow down and give you time,
I don't mean to bring you down
How many times can I say the wrong things?

You know that I care, and I mean it for always
I look at you, I've run you down.
I remember when your smile was so natural
There's something wrong and I know that it's me.

So listen to these words that you hear so seldom
I didn't mean for it to come to this.
Because without you around, I'm next to nothing
I didn't mean for it to come to this.
