Liberty goes hand in hand  
With freedom of the press  
Filtering manipulation  
Weakening their influence

It's up to you what you decide  
Let your conscious be your guide  
Don't go blindly running down the street  
Screaming...

Extra, extra... this just in  
All the news that's fit to print  
With the wheels of progress always turning  
Let the future begin...

Everyone's participating  
Everyone's a voice  
Every citizen reporting  
Everywhere there's choice

It's up to you what you decide  
Let your conscious be your guide  
Don't go blindly running down the street  
Screaming...

Extra, extra... this just in  
All the news that's fit to print  
With the touch of just a single button  
Let the future begin...  
Let the future begin...
