I don't know what my false
What are you doing behind me
In this fuckin lie's so bored
When everything seems like swarm

I know everything's I do is false in your eyes
I know it can't make everything's better
You don't know how I feel so tire for this time
Just I want you leave me alone

Feel's like suck's thing's
When you let that one holding you
Maybe right it just same thing's
Which you have did to me again

I know everything's I do is false in your eyes
I know it can't make everything's better
You don't know how I feel so tire for this time
Just I want you leave me alone

Reef:
I don't know what my false, I don't know what I need
Feel's like pin me it just make everything's so bored
It better you don't know how I feel so tire
In this fuckin shit for this time

But suddenly, your sweat will be your fidgety
In everytime's you make me feel desperate
You like an asshole

Reef:
I don't know what my false, I don't know what I need
Feel's like pin me it just make everything's so bored
It better you don't know how I feel so tire
In this fuckin shit for this time

But suddenly, your sweat will be your fidgety
In everytime's you make me feel desperate
You like an asshole
