Break me down and take control  
I'm tired of this scene  
All my dreams are not reality  
Everything has turned to dust  
And now I understand I must  
Stop fighting You and what You have for me

What I know is this  
There's so much I don't wanna miss  
And I know it won't be easy

You've got me where you want me  
You've got me where you need  
You've got me where you want me  
There's no other place I would wanna be

For so long I've been a mess  
So wrapped up in me  
I'd see Your hand and struggle to get free  
But you loved me just enough  
To break my bones and build me up  
Again so I could worship at your feet

All I know is this  
There's so much I don't wanna miss  
And I know it won't be easy
