Hammer of Gods  
Spill the blood  
Your stigmata servants  
Have sins to evoke  
Submissions has blackened  
The blood in their veins  
Hammering vain  
Your easiest prey

subterranean infiltration  
With words of salvation  
Their feeble attempt  
Drowned in blood  
Drowned in laughter  
Drowned in pain and total slaughter

Christian termination  
Christian termination

Cut their throats one by one  
Christian termination has begun
