Holy book, holy shit  
Every page a lie  
Holy book, holy shit  
Followers will die  
Saacred words of god  
The greatest lie of all  
Hands of hypocrisy, folded in prayers  
Slay them all, make them fall ...

Holy book, holy shit  
Every word's a lie  
Holy book, holy shit  
followers will die

The flames will colour the sky red  
Invokers of god will be dead  
The final war has arrived  
Through the new dark age we ride  
Total war, apocalypse there isl raise my cup  
and taste the chaos kiss

Holy book, holy shit  
every word's a lie  
Holy book, holy shit  
Followers will die

Armageddon, war and total disaster  
Plague, death, lambs looking for their master  
The final war has arrived  
Through the dark new age we ride  
Total war, apocalypse there is  
I raise my cup for the chaos kiss

Holy book, holy shit  
Every word's a lie  
Holy book, holy shit  
Followers will die
