"Shoot To Kill"

Here's what is waiting fine
Enough of the nights
We need the cushion
From the height
How high we've fallen
From last night
Trying to make it right

Turn my life
So get rid of those sweat
Is on your eyes
We need a room
Much brighter tonight
See how much you've wasted us
So just now is this time

Chorus:
You're doomed!
Do you shoot to kill?
Do you shoot to kill?
Uh what?
Now Shoot!
(Repeat 3x)
Do you shoot to kill?
Do you shoot to kill?
Uh what?
Attention!
I'll let your worn be.

We die for the drama
That abuses the most
So reap this pyro piece
Of space of peace and quiet
That I have hope for
I hope

Make it an enter for two
Into what it's time to us to be
High low
Shoot back say hi
How can you miss your mark

I'm only an inch wide

(Repeat Chorus)

Let it bleed!

Let it bleed!

Sheds the name

Bring out the smoke

Sheds the kill

Bring out the swing

(Repeat 2x)

Sing me a song of resolution

Stop hanging in the news

I'd like to move a lot

And serenade you

Don't just hang in

Coz it makes you feel good

We'll make up much this ambiguous

This is our saga

This is our circus

(Repeat Chorus)
