What cross the thresholds to other worlds...
Armies gathering
For the war of their future,
Destiny
With the dream of the storm's salvation
Brought by the winds of vengeance ... hail!

Out from the bonfire ashes
The witchery's rebirth
Creating their destruction
As war brings repent
This is the way to hell
Spawn of storm's descent

Mighty storms of damnation
Demonical wrath
Hallowed be thy name

Litany of storming damnation
Slay what may be in our way
Forever in warfare .. hail
The winds of vengeance
It is you it has condemned
Take its punishment
Welcome death or hail
The winds of vengeance
Vanquish the armies of god
Widespread the holy blood
Run with the winds, cloven hoof born and hail
The winds of vengeance

Mighty storms of damnation
Demonical wrath
Hallowed be thy name
