"Consumed By Fire"

Bred upon evil, through carnage remained
Unite in the feast of the cunt that is god
Consumed by fire.

Demigods of the inhumane and the dark lord's vilest
urge
Bless the few with martyrdom that left the world it's
deepest cuts

Bred upon evil, through carnage remained
Unite in the feast of the cunt that is god
Consumed by fire

And washed their hands with the blood of the innocent
As sanctified glorified hate upon god
Razorblades spawned this very being

Bred upon evil, through carnage remained
Unite in the feast of the cunt that is god
Consumed by fire.
