"Scum Of The Earth"

We ride upon the storm of damnation
Crushing all life of God
Cleansing the earth from filth
Christians , truly the scum of the earth

God your lies are shattered
Shredded by the claws of sin
Fire ! crest his corpse
And burn him beyond infinity

We ride upon the storm of damnation
Crushing all life of God
Cleansing the earth from filth
Christians , truly the scum of the earth

Through the gates of the holy we burst
Smashing the heads of those we cursed
Burning the book of lies
Pages to ashes towards heaven fly

Armageddon is here , heaving it's ruins
God lies flade and dismembered
Christians are burned and forgotten
We have prevailed , the earth is cleansed

Through the gates of the holy we burst
Smashing the heads of those we cursed
Burning the book of lie
Pages to ashes towards heaven fly...

Armageddon is here , heaving it's ruins
God lies flade and dismembered
Christians are burned and forgotten
We have prevailed , the earth is cleansed
