

## Grief "Stricken"

Out of drugs, pissed off again  
I think I am nearing the end  
Another fucking day  
Another disappointment  
Scars in my flesh tell the story  
- Of a broken man

Pessimistic existence  
Numb myself with chemicals  
Drunk and fucking angry  
I'm sick of fucking screaming  
How much longer can I take  
Living a life without no meaning

Fucking stricken

Dreams and goals = void loneliness confusion  
Trapped within a cell of negativity  
Why try??? When failure is the norm  
Work sucks, life sucks  
I wish I was never born
