Awaiting the night for filthy torture,
Nothing more... to lose.
"Inside my life, ain't no one around,
And no fate... to choose."
With no one but you to laugh at your sorrow,
Your life will fade,
And feeling your heart filled with sadness and pain,
Till the end of this day,
Pain will remain!

You've seen your pathetic illusions broken,
You've seen what's real.
You've seen no one, in grief, to hold you,
Make amends.... still!
For years you've trusted your fucking dream world,
You can't stand.... The Grief!
With no one but you to laugh at your sorrow,
You must live.... The Grief!

The Grief....!
I feel....!
I live....!
In the Realm of The Grief!

Awaiting the night for filthy torture,
Nothing more... to lose.
Inside your life ain't no one around,
And no fate... to choose.
For years you've trusted in your fucking dream world,
You can't stand... The Grief!
With no one but you to laugh at your sorrow,
You must live... The Grief!
...And feeling your heart filled with sadness and pain,
At the end of this day,
Pain will remain!

I feel....!
I live....!
In the Realm of The grief!
