As him you'll pay for the lies of your prophecy  
For spreading the malformed seed  
Like the plague,  
You're all like infants, curious and dumb  
Imitating old mistakes  
Trying to reach for higher ground  
For now and always bound

Inbreed of god  
The malformed seed  
The malformed seed  
God of inbreed

In slavery you live  
And always going to stay  
You always forgive  
Your children we slay

Inbreed of god  
The malformed seed  
The malformed seed  
God of inbreed

Of another kind you've been born  
Like your master  
Even you carry the thorn  
Looking through the eyes of truth  
Children like these should never be born

Let me take you to the world beyond life  
Let the flames embrace your soul  
Let your soul be our tool  
To consume our infant fools

Inbreed of god  
The malformed seed  
The malformed seed  
God of inbreed
