Oh the city snow makes your brown eyes shine  
We've gotta look real hard to find a reason to cry  
New York, New York is a friend of the traveling kind  
And I'm coming around from years of hard times  
He's chased me down through the towns and the miles  
Once stilled by love he was bound to roll on by  
Chorus  
And if you feel my love won't leave you  
And if your sorrow has been your share  
If you are traveling back to Georgia  
(oo ooo back to Georgia)  
Won't you take me with you there  
Well I'm long gone darlin', lonesome blue  
I been thinking of leavin', I been thinkin' o you  
But that big city singin' man, I like the way that it shines  
I was half a mile from Canada waitin' on a train  
Wonderin' and wishin' I could disappear again  
I been killed by love still it takes me to the end of the  
line  
Chorus:

And if you feel my love won't leave you  
And if your sorrow has been your share  
If you are traveling back to Georgia  
(oo ooo back to Georgia)  
Won't you take me with you there  
Well, I been troubled by a love untrue  
He's a fool who'll drown in his fountain of youth  
I can see that now as I'm walkin' and talkin' with you  
Well, I been blinded by the sun, washed in the rain  
Scattered in America, I'm scatterin' again  
But if you're goin' south darlin, I guess I'm travelin' with  
you  
Chorus  
Chorus  
Take me with you...  
Oh....won't you take me home
