A monument in time  
A proof of having been alive  
Evidence of existence  
Beyond the naked eye  
There's chaos in control  
Visions clash and breed apart

A new level of commitment  
In time this world will see  
That this is real

No one, nothing will ever change  
This word will always remain the same

A new level of commitment  
In time this world will see  
That this is real

A monument in time  
A proof of having been alive  
Evidence of existence  
Beyond the naked eye  
There's chaos in control  
Visions clash and breed apart

Forgetting the past is ignoring the future [x2]

No one, nothing will ever change  
This world will always remain the same
