There's no time (to) fuck around  
How hard can it be?!!  
Head straight for (the) fucking  
Nerve  
Take a stand be a man

No compromise  
No compromise

Nowhere left (for) you to hide  
Time for you to decide right now  
Kill the (painted) smile  
(Or keep the) face & lies

No compromise  
No compromise

Bleed black or white now

No in between  
Can't run forever  
Hiding in a dream

There's no time  
Black or white  
Be a man  
Take a stand  
(Be a man take a stand more then a goat signed hand)

You play tricks  
On yourself  
To me you're  
(As) clear as day  
(Posing & talk don't fool me, too bad your own 2 eyes  
cant's see this)
