This guy attacked me
But said I blew his mind
We became friends in good time
He said play a fat beat
And don't be shy
You'd be surprised what
You'd find
This ain't no compliment
It's justice you will see
Now just take it away baby

I feel a presence I don't know
And the mystic wind is blowin'
Dope vibe moon
Now if you trust me
I won't tell you what to do, but
I'll put this mood into you
And if you must see proof
Your judgment is the best
Put this mood to the test
This ain't no compliment
It's justice you will see
Take the guitar and play baby

I can feel my tube amp glow
I can feel the music flowing
Dope vibe moon

When the moon's in phase
You catch a unique vibe
Your guitar takes us for a ride
When your lucky stars
Are singing from above
We feel the power of love
This ain't no compliment
It's justice you will see
Now just take it away baby
