Dry the blood I'm done feeling the separation I'm sick  
of your dried blood this is self contreol stop this  
standard it never stops it's not gonna stop the shame  
you feel when you're alone tragic non stop wake up and  
die madness weak will dead weight is not the answer i  
tried for years just to finalize i tried to cut the vein  
instead dry the blood dry the blood separation done  
stops this standard it never stops it never stops the  
shame you feel when you're alone someone stop the  
bleeding fall in love alone tell me there is a balance  
that is self control stop this standard someone stop the  
bleeding addictions i have gone cold give me sense of  
balance that isn't self control can someone stop the  
bleeding addictions i control someone stop the  
bleeding someone stop the bleeding.
