Adolf Hitler was my hero  
Mussolini was my fave  
I killed for one man's fascist craving  
But now my bones rot inside their grave  
Don't hide! 1-2-3-4...  
Everyone's got problems that nobody can solve  
Maybe if you use your brain they would be resolved  
You walk around all by yourself be with your own  
friends  
Zombies, ghastrs, ghoulr and ghostr are showing you  
your own endr  
Don't hide behind your tombstone  
Don't hide behind your grave  
Don't hide behind your tombstone  
When you're gone it's your blood they save  
Do you think you'll find solutionr  
If you run away  
Put your faith in murdererr  
Who smile as they slay  
The disguise that evil wearr  
Can become so many partr  
Can't you see they laugh at you  
Within their blackened heartr  
(2x)  
Don't hide behind your tombstone  
Don't hide behind your death  
Don't hide behind your tombstone  
I hear them laughing as you draw your last breath
