The harder you pull, the faster it comes, until you can't stop

The longer you push, the deeper it goes, until it's too far

The more that you do, the more that you love, the more that you need

To get relief, to feel at ease, please hit me

Because I always want more (x4)

Draggin my feet can't keep the beat, feeling

Caught in the grind, worn down by time, boxed in

To the routine, the same old thing, repeat

Day in day out and all through the night

I see the fear and loathing in your eyes

All this time you've been wasting away

Round and round, yeah you get around

Are you getting where you're going today

Fields of poppies got you hypnotized

Your mouth is dry, you've got nothing to say

Down the rabbit-hole your body slides

And the ground beneath you is giving way

Love it's so much, can't get enough, come back

Again and again can't wait 'til when, I'm back

Painting the scene, having ice-cream and tea

Living the dream, taste sweet-sixteen, I'm free

Got my psychédélique wonderdrug (3x)

Feel the pulse of life intensify

It pulls you in and it takes you away

See the colors start to crystallize

And reality is starting to fade

As I walk on by

Thought I might have seen you smillin'

And I don't know why

But I just might miss you darlin

Greet the sunburned sky

As the dreary mist is falling

And I don't know why

As I walk on by

Lift your spirit, come and take a ride

Feel the rush come and take you away

Got my psychédélique wonderdrug (2x)

And it makes me high(4x)
