Yeah i came from the mountains
Down to the valley below
I met a stranger
Sweet as your burdens on show

All your perfect plans
Got lost because you weren't around
No one can stand you
'cause of what you said to other clowns

And I keep looking for you
Don't know what else I should do
And I keep looking for you
Sweet as sugar

I was lost in the desert
Falling and crawling around
You're not a saviour
'cause of What You said to other clowns

I was unaware
What kind of person
Looks to be standing
When they kissed a lie

And I keep looking for you
Don't know what else I should do
And I keep looking for you
Don't know what else I should do
And I keep looking for you
Sweet as sugar

Sweet as sugar
Sweet as sugar
Sweet as sugar

(Yeah!)

Sweet As Sugar
Sweet as Sugar
Sweet as Sugar

I was traped in a red room
Voices were making no sound
Wild eyed and wasted
I do not want to get out

Are you feeling dead
Cause I'm feeling blinded
When we're together
I feel alive

And I keep looking for you
Don't know what else I should do
And I keep looking for you
Don't know what else I should do
And I keep looking for you
Sweet as sugar

Sweet as sugar
Sweet as sugar
Sweet as sugar
