Yeah, the homies come on up
Where the machos street in section
Watch me make a move
I'm gonna use this slaying machine
I need another one to put me like
A replica madman
I'm serious, so stick a bit of that

(Woo Hoo/Ruuun) Fire engine man
Yeah yeah what the fuck?
Yeah yeah what the fuck?
Can you ever understand
Yeah get a bit of that
Yeah get a bit of that

Yeah the bitches take the beer
Doing the power rods and
The trick is done again
Lift the fence
And then you go up 50ft
You're up and switching to a switch
In midair

Injectors, check that they were safe
Return to the bucket
Till you pull away your gasket

Whooaaahhh Fire engine man
Yeah yeah what the fuck?
Yeah yeah what the fuck?
Can you ever understand?
Right I need a right ???
Right I need a right ???

Repeat chorus

You're the really's style of man
Do you want a beer?
Do you want a beer?
Can you ever understand?
