Were you neurotic as a child?
Did they come around to watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are?

More than you are
More than you are
More than you are now
More than you are
More than you are
More than you are now

Maybe rock was in your dreams
Maybe being there was far too extreme
Swing it high or swing it low
Swing it anytime when you want to go

More than you are
More than you are
More than you are now
More than you are
More than you are
More than you are now

Alright
Yeah yeah yeah
Alright

Were you neurotic as a child?
Did they come around to watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are?

More than you are
More than you are
More than you are now
More than you are
More than you are
More than you are now
